SUMMARY

Visual Communication graduate interested in Product Design, UX/UI, and digital experiences. A fast learner with a proactive approach, strong attention to detail, and a systems-thinking mindset. Research-oriented and collaborative, with a focus on creating functional and visually engaging design solutions.

PROFESSIONAL EXPERIENCE

Product Designer | Creative + | 2026 - Present
Designed marketing assets and visual materials.
In additional, Translated Figma designs into functional, animated interfaces using AI-assisted coding tools and created AI-generated imagery for design projects.

RELEVANT PROJECTS

MANARA Coexistence Competition | Third Place | 2026
Collaborated with three colleagues to design an educational children's game exploring cultures in countries without diplomatic relations. Represented the university in an international competition hosted by the MANARA Center for Coexistence in Abu Dhabi.

Microsoft Clarity | October 2024 - January 2025
Collaborated with three teammates to design a Dark Pattern Detection feature for Microsoft Clarity's behavioral analytics platform. Conducted in-depth system research and contributed to user research, persona and JTBD definition, user flows, and usability testing.

EDUCATION

Bachelor of Design (B.Des.) in Visual Communication | University of Haifa | 2022 - 2026
User Experience (UX) Course | BEX College | 2020–2021

MILITARY EXPERIENCE

IDF | 2017–2022
Served in the Coordinator of Government Activities in the Territories and Intelligence Corps.
Progressed from Coordination and Liaison NCO to Shift Manager, then Procurement Team Leader, leading procurement improvement processes and working with senior command.

AWARDS AND HONORS

Visual Communication Department Excellence Award | 2023
Military Excellence Awards | 2019–2021
